Dear Peter

**RE: PUMPING SOLUTIONS SS PUMP**

As a supplier of pumping equipment to the mining industry in NSW & Queensland, I am pleased to be involved in the development of the SS double diaphragm pumps by IPAB Pty Ltd.

As you know Firefly International is a manufacturer of pneumatic equipment in the mining industry.

Your adaptive concept and a more cost effective method of dealing with slurry and coarse coal cuttings will be in high demand, as indicated by your early feedback and positive responses to onsite trials.

We believe you have created an innovative solution to a mining support issue which will be hugely marketable. We will continue to support this patented solution to mine slurry and look to forming a distribution alliance in the long term.

Kind regards

A handwritten signature in black ink, appearing to read "P. Wright", is written over a horizontal line.
